

## Second-Generation Integrated Solar Street Light (AT8900)

### Product Advantage:

- Professional design team develop, put solar panel, led chip, controller, battery, human induction in one box.
- Solar panels can be adjusted 360 degrees to suit various environments
- Intelligent sensor technology, microwave radar sensor, according to the moving object to adjust the brightness of the lamp , more energy-saving, humane
- Smart remote control, With UVA(unmanned aerial vehicle) remote control,remote control long distance, bring high corrosion resistance,Four lighting modes can be set

### Product Parameters:

<b>ITEM NO.</b>	AT8900
<b>Solar Panel</b>	Monocrystal Silicon 18V/50W
<b>Battery</b>	Lithium battery11.1V (24AH-60AH)
<b>LED color</b>	Bridgelux 3030 /4500-6500K
<b>Material</b>	High-end aluminum alloy + outdoor
<b>Dimensions</b>	59.8X23.0X26.1 CM
<b>Charge time</b>	>8 hours
<b>Work time</b>	12 hours/day, support 3 rainy and cloudy
<b>Mounting Height</b>	4~5 M
<b>Weight</b>	11 KG
<b>Working Temperature</b>	-25℃ — +65℃
<b>Installation Diameter</b>	Φ60-65mm (suggest)
<b>Warranty</b>	2 Years
